
LABORATORIO METROLOGICO DI TARATURA – ACCREDITATO LAT N.142 UNI CEI EN ISO/IEC 17025:2018

MQSDM005 Rev.01 del 2023-03-03

POLICY

S.D.M. Measuring Instruments believes the future of the company lies in the full satisfaction of customers and stakeholders through the implementation of a Management System complying with UNI EN ISO 9001:2015 and UNI CEI EN ISO/IEC 17025:2018 norms.

Management allocates the necessary funds, staff and instruments and ensures the Management System is constantly monitored and periodically assessed by measuring goal achievement in monitored processes.

The company focuses on customer expectations and requests by offering complete and professional services and through qualified personnel.

S.D.M. Measuring Instruments and all its employees strive for quality in each and every phase of each and every process.

The company promotes Health and Safety at work. Detailed specific procedures are put in place to guarantee customer data protection and measuring result impartiality. All activities are carried out in full compliance with requirements of laws, norms, regulations and applicable ACCREDIA, EA and ILAC prescriptive documents.

The Management System is founded on a risk-based approach that allows us to determine factors that may cause a deviation from standards, thus enacting preventive measures and seizing the opportunity for continuous improvement.

Management periodically verifies that this policy remains pertinent to company goals and that it is applied and shared at all company levels.
